

Project "m"

Interviewer/Monitor Tasking

Describe the vehicle(s)

182478
836131

Note: In the envelope are photos, sketches and descriptions.

Ops Note: Expand on viewer's descriptions as much as possible. Explain the vehicle(s).

S4 1/2 - Concept of "huge" umbrella & envelope (non-physical) connected with equipment. Purpose is to "cut off" or "confuse" what happens inside "envelope" from knowledge of others outside envelope.

S4 1/2 Concept of vehicle - towed to location. Set up on outriggers, and level/balanced/calibrated to be put in operation.

S4/2/1/s 1 impression it is Soviet, deployed, but may used in
training + ops testing. Not allowed outside Sov. Union.
because want to keep it "under wraps" yet a while.

Equipment parked connected with site involves an electrical/electronic apparatus towed behind vehicle until operational site reached. Then, "jacked up" on "outriggers", leveled/adjusted/calibrated for operation. Purpose of equipment to produce a ^{huge} ^(hundreds of km²) shielding "envelope," a "umbrella" which ~~to~~ cuts off "or" captures what goes on inside of "envelope" from awareness of those outside of it. Device is ~~connected~~ connected to vehicle system. Ideas of "artificial aperture; electromagnetics and "synthetic" are involved with equipment.
